

Results of an online survey focused on the current expectations and actual impacts of Brexit for small and medium-sized firms in the Czech Republic.

Nearly half of small and medium-sized firms in the Czech Republic have a prepared plan for their future course of action in connection with Great Britain's exit from the European Union. Twenty-eight percent of such companies have experienced a decline in orders or revenues resulting from the situations surrounding Brexit. Four

out of ten firms have registered an indirect impact in the form of, for example, additional administrative costs or amendments of contractual conditions. These are the findings of a recent survey carried out by Bibby Financial Services and the British Chamber of Commerce Czech Republic among firms trading with Britain.

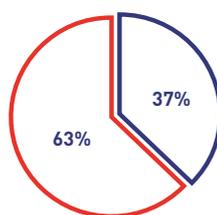

How many employees does your firm have?

0-50 43
51-250 25
more than 250 15

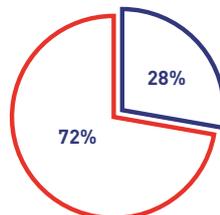

Some firms are rather seeking other markets due to Brexit? What about you?

Yes 31
No 52
