

# WALK OF FAME

## INFORMATION FOR INTERESTED PARTIES

### FAQ:

#### **How much does a brick cost? ?**

Bricks are divided into three price categories, each offering different benefits. Of course, a gift E-certificate is issued for each brick, which you can boast about before we put the brick into the pavement. In return, we will be happy to show off your photo with our certificate on social networks.

#### **What is the difference between an E-brick and a brick for the "Walk of Fame"?**

E-bricks are an alternative form of donation through the payment gateway on the AKCE CIHLA website, for donors who did not manage to physically purchase bricks in the streets. An online contribution can be made at any time and from anywhere. Bricks for the Walk of Fame are gifts in the form of an online contribution in the form of a symbolic E-brick worth CZK 5,000 or more, for which the donor expresses interest in having their name published on an exclusive brick that will be placed in the "Walk of Fame".

#### **How can I purchase a brick?**

More information can be found on the [akcecihla.cz/chodnik-slavy/](http://akcecihla.cz/chodnik-slavy/) and you can make the payment through the payment gateway for the purchase of E-bricks [akcecihla.cz/e-cihoa/](http://akcecihla.cz/e-cihoa/). Payment is possible by payment order or by card. If you need more information, contact us at [cihlavakci@portus.cz](mailto:cihlavakci@portus.cz).

#### **Will I receive a donation receipt?**

After purchasing a brick, you will receive an information email, where you fill in your details if you are interested in a donation receipt, and we will send you a confirmation.

#### **What will Portus buy with my money?**

The proceeds will be used for a complete innovation of the Na Vyhlídce ("Overlook") Sheltered Housing. The target amount is CZK 1,200,000 and by collecting it, we will implement the dehumidification of the entire building and the innovation of kitchenettes in 6 studios.

### **How many characters can there be on a brick?**

The maximum number of characters in one line is 15 and the maximum number of lines is 3. However, the long name can be divided into multiple bricks. E.g. A building society of the Czech savings bank could have up to 4 bricks (4x5,000,-).

### **Can I have a message engraved on a brick?**

Unfortunately, this is not possible in this campaign. We will focus only on the names of companies, teams, families, etc.

### **Do all letters have to be the same size?**

Yes, the height of the character is approx. 11 mm.

### **What is the durability of the inscription on the brick?**

The required text is burned with a laser beam into a brick, which melts and becomes glassy at the point of impact of the beam. The inscription is then permanent and irremovable.

### **When will the brick be inserted directly into the pavement?**

The actual implementation of the brick planting is planned for autumn 2024. For the time being, when you buy a brick, you will receive a gift E-certificate from us (we will send it printed by post on request).
